D.C.No. C/ - . Project ... Lloc ... -1.

From

Sri G. Shastri, M.A.,
Project Executive Officer,
Bangalore.

To

The Director
and Ex-Officio Secretary to Govt.,
Fort St.George, Madras.

.....

Sir,

Sub: COMMUNITY PROJECTS - South Canara - Public Health and Medical Aid - Lloc I - Social Service Mobile Van - Supply of Medicines etc. - Proposals - Submitted.

*****

A provision of Rs.10,000/- was made in the budget estimates for the supply of medicines etc. to private hospitals in the project area. The sanctioned budget communicated in Government Memorandum No.11190-A Pub.(C.P.)-1/53-1 dated 20-4-1953, states that the proposal has been approved and that the amount sanctioned under the head "Health and Rural Sanitation" covers the expenditure on this account. The amount will be spent at the rate of Rs. 5,000/- for each block.

2/ The Employer Labour Liaison Committee of Mangalore is running a Mobile Dispensary called the "Social Service Medical Van". Sri D.Vaikunta Baliga, M.L.A., and Rev.Fr. A.Sequira S.J. are the President and Secretary respectively of the Committee. A copy of the Memorandum of Association of the Committee which contains its aims and objects is enclosed for favour of information. The Van was inspected by Sri S.K.Dey, Honorary Administrator, Community Projects Administration and Sri K.S.Ramachandran, I.C.S., Director of Community Projects, when they were on tour in the District. The Mobile Dispensary is being run with the help of honorary doctors and volunteer nurses. The Committee has opened three centres in the factory and slum areas and is mainly concerned with the treatment of the poor and the helpless. The medical attention and the treatment given are free. The Mobile Dispensary is treating about 40 patients a day and not less than 1,000 persons are benefited by it per month. The Committee intends enlarging its activities and is at present engaged in mobilising public cooperation through service. Though it has an ambitious plan before it, its resources are rather slender at present. It has therefore approached the Community Project for financial aid for the purchase of medicines and a few essential instruments. I am enclosing a list showing the drugs etc. furnished by the Committee. The cost of the items mentioned therein is about Rs. 1,500/- Though the Committee desires that the entire expenditure might be met by the Community Project, the maximum expenditure provided in the Budget for each institution is only Rs. 1,000/- The Mobile Dispensary was started only recently. For the present, it is enough if an expenditure of Rs. 500/- is met from the Community Project funds. The question of granting further aid may be considered in due course after assessing the service rendered by the Mobile Dispensary. After necessary report is received, the drugs etc. will be purchased and handed over to the Committee on the condition that the treatment should be free and that proper accounts are maintained.

3/ I request the favour of early orders. I request instructions on the following points and regarding any other instructions the Government may be pleased to issue in the matter i.e. is it to be given to the President for purchase of medicines and production of proper vouchers

C.

to maintain proper accounts etc.

Yours faithfully,

Copy of t[illegible]morand[illegible] of [illegible]ssociati[illegible] of the Employer-Labour Liaison Committe[illegible], [illegible]lor[illegible] dated 8-4-1952.

.....

1. Name: The name of the Associ[illegible]tion is "The Employer-Labour Liaison Committee, Mangalore".

2. Objects: The objects of the Association are:

a) To improve the educational, social and economic conditions of the working classes;

b) to instil in the workers a sense of duty to God, family, society and country;

c) to strive for and obtain a living wage or at least a minimum wage for the workers employed in each industry;

d) to regulate the relations between the workers and their employers and to promote cooperation and harmony between the[illegible]

e) to render help to the workers through constitutional methods;

f) to help in the formation of trade unions of workers employed in the various factories and industries carrying on in Mangalore and the suburbs and in the rest of the South Kanara District;

g) to secure for the workers fair condition of life and work;

h) to provide or arrange to provide relief to workers against sickness, unemployment, accidents, old age and death;

i) to cooperate in civic and political movements based on promoting social justice;

j) to cooperate and federate with organisations having similar objects;

k) to collect statistics connected with labour and production in various inlustries;

l) to conduct trade disputes on behalf of the workers employed in any factory or industry;

m) to publish periodicals for giving publicity to the activities of the Association:

n) to establish employment bureaus;

o) to provide medical relief;

p) to improve housing conditions;

q) to start cottage industries;

and other such objects as the Association may decide upon to fulfil the purposes of the Associati[illegible].

Ref. No. Extra

2nd June 1953.

Please examine in the light of the recent communication from the C.P.A regarding cooperation with non-official agencies

Sri T. S. Ramachandran, I. C. S.,
Director, Community Projects,
MADRAS STATE.

Dear Mr. Ramachandran,

You will kindly recollect that I showed you the Mobile Medical Unit and presented to you the Secretary, Rev. Fr. Sequeira. I am sure you would have been impressed with his sincerety. He has thrown up all other avocations including his services on the staff of the St. Aloysius College that he may concentrate his whole attention on the social service in particular with regard to the running of the Mobile Medical Unit. I am glad to inform you that the Unit is working very efficiently and proving a great boon to workers and the poor in general.

I suggest the part of the scheme for medical relief in the Community Project Department could be co-ordinated with our efforts and we could become more useful. We are willing to co-ordinate on any terms that the Government proposes. We are willing to act as Honoraries for distribution of medicines and grant of relief to the needy as will be envisaged by the Community Project scheme.

I am herewith enclosing an advance copy of the application that is submitted through the Community Project

Representations were made to the Community Project Officer and the Community Project Director of the State and other concerned Officers with regard to the willingness of the Committee to co-ordinate its work in furtherance of the Community Project Scheme. With such co-ordination it will be possible to expand the service by increasing the area to be covered which will imply an increase in the number of vehicles, extension of the servicing staff, and provision of a corresponding supply of medicines.

The Committee has always sought and obtained the co-operation and guidance of all good men willing to devote themselves for social work. If and when the Government is going to give grant of money and supply of medicines, the Committee will be too glad to have representatives of the Government to become ex-officio members. Alternately or in addition we are willing to have any person suggested by the Government on the Committee to ensure proper application of the funds and materials. Our accounts are audited by Chartered Accountant. We are willing to have them audited by any officer of the Government. If so desired we are ready to give monthly or fortnightly returns with regard to the expenditure of money and materials that might be supplied by the Government under the Community Project Scheme.

.....

Sir,

Sub: Community Projects - South Kanara - Public Health and Medical Aid - Block I - Social Service Medical Van - Supply of Medicines etc. - Further report - Submitted.

Ref: This Office report Ref.C.No.206/52-B D/ 11-5-1953.

*****

In continuation of my report cited above, I submit herewith a communication addressed to the Director by the Employer - Labour Liaison Committee, which is running the Social Service Medical Van. In my report cited, proposals were submitted for the supply of medicine worth Rs. 500/- for the upkeep of the Van and I had solicited instructions whether the amount when sanctioned is to be placed at the disposal of the Committee for the purchase of medicine and production proper vouchers or whether the medicine has to be purchased and given to the Committee with instructions to maintain proper accounts. I have not received orders on my proposals so far. In the present communication, the Committee suggests that in order to enable the Community Project to exercise control over the proper distribution of the supplies, the Project Executive Officer might be co-opted as an ex-officio member of the Committee with powers to check the accounts to be maintained by it. I have already submitted a copy of the Memorandum of Association of the Com ittee. As it will be clear from it, the Van is only one of the several aims and objectives of the Committee and its activities as contemplated in the Memorandum of Association, are such that a Government servant cannot function as a member of the Committee. But the Committee is agreeable to have its accounts relating to the supplies to be made by the Community Project checked by the Project Executive Officer and this safe-guard, appears to be sufficient to ensure the proper use of the drugs supplied. I therefore submit that early orders may kindly be passed on my proposals already submitted. This Mobile Van is doing very good work and requires to be encouraged.

PROJECT EXECUTIVE OFFICER.

Mangalore-3

Ref. No. 28315 12th October, 1953

Dear Mr. Ramachandran,

While at Madras I made enquiries and was happy to learn that the grant asked for relative to the Mobile Medical Van working in Mangalore has been approved. The Van is in urgent need of funds as well as medicines. Early disbursement will go a long way to ease the situation. On enquiry at the local office of the Government Treasury Officer, I learn that they have not received any intimation.

Awaiting an early reply,

Yours sincerely,

Vaikunta Baliga

Sri T.D.Rajan, I.C.S.,
Director: Community Projects,
Madras State, MADRAS.

ACCOUNTS (SUBSIDIARY) SECTION
5 OCT 1953
PUBLIC

27543

PUBLIC (COMMUNITY PROJECTS) DEPARTMENT
Memorandum No.22066 Pub.(C.P)-I/53-4, dated 28-9-1953.

Sub:- COMMUNITY PROJECTS - South Kanara Project Area - Overall Programme of works - Clarification - Orders issued.

Ref:- (1) From the Project Executive Officer, No.992/53-1.B. dated 6-8-1953.
(2) From the Project Executive Officer, No.992/53-2.B dated 6-8-1953
(3) From the Project Executive Officer, No.992/53-3.B dated 6-8-1953.
(4) From the Project Executive Officer, No.992/53-B dated 13-8-1953.

Regarding the provision of Rs.2,625/- referred to in the letter first cited, the Project Executive Officer is informed that separate orders will issue authorising the expenditure.

2. As regards the supply of medicines to private hospitals and Rural Dispensaries, separate sanction of Government is necessary in each case. The Project Executive Officer is requested to instruct the medical officers in charge of the five institutions to prepare indents for the medicines etc. required from the Medical stores subject to the monetary limit of Rs.500/- (Rupees Five hundred only) in each case which should include all incidental charges also and send the same to Government through the District Medical Officer and Director of Medical Services.

3. Regarding schools, the Project Executive Officer is informed that the Community Projects Administration has approved of 15 Primary Schools of basic type and improvement of 27 schools in the matter of accommodation for the I Block. With reference to this target the Project Executive Officer may submit firm proposals. He may give first preference to institutions belonging to Local Bodies. He should also restrict the amount to be spent on buildings to Rs.1,500/- per school and take up Lower Elementary Schools first for conversion into the Basic type. He should fix approximately the amounts required for each institution and indicate preferences.

4. So far as Adult Literacy is concerned, the Project Executive Officer is requested to note that the quantum of assistance for each centre is Rs.500/- (Rupees Five hundred only). This includes pay of the teacher and Rs.4/- against contingencies, a petromax light, and some expenditure on slates and slate pencils. No building grant can be given to these centres.

K.SRINIVASAN,
Deputy Secretary to Government.

Sub: COMMUNITY PROJECTS - ~~Mangalore Project~~ Mangalore Project Area - Supply of medicines to private hospitals.

Ref: From the Project Executive Officer, Mangalore, Letters Nos.206/52-B dated 11-5-53 and 5-6-53.

Please see the letters from the P.E.O., Mangalore in the c.f. In the papers put up at (E), the request of the P.E.Os of Palghat and Mangalore for supply of medicines to a Local Fund dispensary and a private practioner respectively were negatived for the reason that there was no provision in the Project Estimates for the free supply of medicines in Palghat area and in the case of Mangalore Project area, it was proposed to supply to a private practioner.

The P.E.O's request is now for sanction of Rs.1,500/- for supply of medicines to Social Service Medical Van attached to the Employer-Labour Liaison Committee, Mangalore. The P.E.O. has also reported that necessary undertakings from the Committee will be taken for the free supply of medicines and proper maintenance of the accounts, if sanction is accorded for the free supply of medicines to the institution in question.

It is submitted that there is provision for the sum of Rs.5,000/- in the Budget Estimates to meet the expenditure of the above type in the Mangalore Project area. In the overall programme submitted by the P.E.O he has proposed free supply of medicines to ten institutions inclusive of the Social Service Medical Van in this file. But approval has been given for free supply only to 4 Rurual dispensaries and one L.F dispensary at Rs.500/- for each of the Rural dispensaries and something more for L.F. dispensary. In this

overall programmes file linked below..

P.T.O.

connection the P.E.O has been asked to instruct the Medical Officers in charge of the 5 institutions ~~xxx~~ to prepare indents for the medcines required from the Medical Stores subject to the monetary limit of Rs.500/- ~~xxx~~ in each case which should include all incidental charges also and send the same to Govt. through the D.M.O and the D.M.S and (the) indents are awaited. (A).

Itis evident from above, that free supply of medicines to the Social Service Medical Van has not been approved. The organisation is purely ~~temporary~~ a private one and ~~It~~ is intended for the ~~welfare~~ Welfare of the labouring class only. It does not seen necessary, that aid should be given from C.P. Funds to the particular section of the Community., and request of the P.E.O. may perhaps be ~~negatived~~ negatived. Subject to orders a draft memo is submitted for approval

The overall general programme approved by the Govt for the S. Kanara Area contains provision for supplying medicines to the tune of Rs 1500/- for each institution spread over a period of 3 years. The total provision is Rs 15,000/- To the institutions proposed in Blocks I & II will be found at Mor p 20 C, 22 C & 23 C of L.F. We have permitted the P.E.O. to send up indents for the 5 institutions in Block II only. - Pl. see para 2 at p 13 C of L.F. 2 on p 24 C of L.F.

In the letter at p 1 C, the P.E.O. Mangalore has asked for sanction of an expn of Rs 500/- for the purchase of medicines etc. for the Employer Labour Liaison committee of Mangalore which is running a homoeo dispensary. I myself saw the van maintained by the committee when I visited Mangalore in May last. The Secy. came with the van and two volunteer students on his way to visit a suburb. I was told that even some roaming practitioners of

(N)

Mangalore give free services by them, each week. The P.E.O. has included a provision of Rs 1000/- in the overall programme for this purpose in Block P.L. Sept & p 20 of g.f. The institution seems to be worthy of contribution. The only factor on which decision may be given is whether the medical aid is given to persons living outside Mangalore town. If such aid is given, we may agree. This may be ascertained before sanction is given
